

Space Heater

Jumping, Bumping up in the air
Like a dance in my reasoning
(Drum start)
This warm feeling when you get ready to ride

(Master mindless mastermind
Madness deep space reminding
Space heater)

There's one more step
into a brighter place
Will you take it
Into another level
One more step to a brighter place

Get in my intellect, introvert
Get lost in my perceptions, inception
Please get in my head

Master Space Heater, ha ha ha
Master Space Heater, ha ha ha

Lines, words, many combinations of thoughts, fly.
Many worlds down.
Stimulated traveling mind Houhouhou.
Hey hey
Would you stop running into my reflections?

(Madness deep space reminding
Master Space heater)

There's one more step
into a brighter place
Will you take it
To another level

Get in my intellect, introvert
Get lost in the perceptions, inception
Go get in my intellect, extrovert
Get down to the consciousness,
In my head, running, running!

Oh ooohhhhh oh oh
Oh ooohhhhh oh oh
Master Space Heater, ha ha ha
Master Space Heater, ha ha ha

Get in my intellect, introvert
Get lost in the perceptions, inception
Go get in my intellect, extrovert
Get down to the consciousness,
In my head, running, running!

In my head
In my head
In my head
In my head
