

Close

Around us and near me
The blood in our veins
Is this real?

You're gone but close
I can hear you
And I can see you
Leading us all
You're gone but close
Heading to the unknown

Around us and near me
The blood in my veins
Will make me strong
Will give us strength
You're gone but close

Thousand eyes
Make you proud
Do not look down
A thousand eyes do not look down

Thousand eyes
Catch your breath
You're not alone
A thousand eyes do not look down

Settle down, one day
I will be up there

Oh Oh ooohhhh ooohhhh
