

# Above the wheels

Don't stop the rain I'll learn to fight  
Don't cut me lose we have to fly  
Don't stop the pain I know my rights  
Don't make it burn I'll learn to lose

Above the wheels we're flying high to the clouds  
Above the wheels

Let's get this under the hood  
Equilibrium needed  
How many miles to go?  
Balance is still not good  
Oliver flies the airway  
The detrimental aspect  
Don't fear your enemies  
They will show you the way.

Don't stop the rain I'll learn to fight  
Don't cut me lose we have to fly  
Don't stop the pain I know my rights  
Don't make it burn I'll learn to lose

Above the wheels we're flying high to the clouds  
Above the wheels

Let's get this up in the air  
Negotiations have begun  
Tell me the way to go  
Metal or humans brain  
Iron will always win  
Everyone has deserted  
No matter what happens  
We will be above the wheels
