

I Hear Them Whistling

I hear them whistling
I hear them fall
My mum always tells me to hide
But I don't know, I have my pride
I will go and see
I will go and play
Why shouldn't we have fun?
When the fun is all we need

Hhuummmmm hhummmmm x4

Unknown sounds end up with holes
Adventurous, curiosity
Nothing can stop me, even the spark
I need to rejoice my heart

I hear them whistling
I hear them fall
My mum always tells me to hide
But I don't know, I have my pride
I will go and see
I will go and play
Why shouldn't we have fun
When the fun is all we need

Hit me up
Beat me up till the end
Hit me up
Beat him up till we'll come back in time

Without me
Will you head down

We are going on a long journey
We are leaving, not even prepared
Furthermore, I'll meet you there
Across the borders, around the worlds

This is a turning point
A way of life

Building a new home
Up Here

There is no turning back
A way of life
Few more steps into a Brighter place
Brick by brick
There will be no arguments here
Will you remember all of this?
Hey what are you doing, my dear?
Get down, Get down!

*Win, distant games
Who to blame
How can I
Hear them talk*

*Win, persistent games
They are to blame
How can I
Hear them shout, Shout!*

We are, we are far from here
Leaving it all behind
Even...

I hear them whistling
I hear them fall
My mum always tells me to hide
But I don't know, I have my pride
I will go and see
I will go and play
Why shouldn't we have fun?
When the fun is all we need

I hear them whistling
I hear them fall
Why shouldn't we have fun?
When the fun is all we need
